

May, 1971

To our Customers, Friends and Associates:

You have known us in the past as  **Dohrmann INSTRUMENTS** supplying sensitive, rapid analyzers for the determination of nanogram amounts of nitrogen, sulfur or halogen; and  **LOENCO Inc.** manufacturing high sensitivity, ultrastable gas chromatographs and a wide range of GC valves.

Most recently we were

Now we are
facility.

and will operate as usual from our Mountain View

Envirotech, our new parent corporation, is a worldwide supplier of technology and equipment for environmental management and the economic processing and recovery of wastewater and other material resources. The annual sales rate is in excess of \$100 million.

Service to you, our valued customers, will remain unchanged. We will continue to utilize the talents of the nationwide Infotronics Corporation sales force and service organization. In addition, we will provide Infotronics with immediate applications and service backup from the factory.

Our line of instrumentation for analytical laboratories will be expanded. We will also apply our know-how to new analytical pollution measuring techniques.

May we take this opportunity to thank you for your past business. We look forward to supplying you with our high quality instrumentation.
